

## REMINDER AND DIRECTIONS SHEET

Thank you for participating in the Duke Neurogenetics Study. This sheet serves as a reminder for your various sessions. Please look under “sessions” for session relevant directions and instructions.

After your initial interview, you are given a map to the locations for your computer assessment and imaging session. If you have lost this map and need to print a new copy, you can do so by going to <http://www.haririlab.com/map.html>

If you cannot make your scheduled appointment, please contact us as soon as possible at (919) 684-1039 or [haririlab@gmail.com](mailto:haririlab@gmail.com)

## SESSIONS

**THE INITIAL INTERVIEW:** This visit consists of an interview and brief cognitive testing. Please meet the clinician outside of room 07 in the **Psychology/Sociology building** on Duke’s West Campus. Please allow up to 2 hours for this first study visit. Please bring the names, emails, and phone numbers of three people that know you well, and your eyeglasses or contact lenses, if you wear any. You also will be asked to provide a saliva sample. If you have one, please turn off your cell phone for the entire study visit.

**THE COMPUTER ASSESSMENT:** This visit will consist of answering questionnaires in the **Center for Cognitive Neuroscience Lab B-104**, which is on the first floor of the **B Wing of the Levine Science Research Center (LSRC)**. You will have your waist circumference and weight measured during this visit, and if it is your second visit, you will be asked to provide a saliva sample. Please have a seat in the main lobby of LSRC adjacent to the lab and wait for the experimenter. Please allow up to 2 hours for the second study visit. Please bring your eyeglasses or contact lenses, if you wear any. You are also allowed to bring a **portable music player** with headphones to use during the visit. If you have one, please turn off your cell phone for the entire study visit.

**THE IMAGING SESSION:** This visit will consist of an MRI scan in the Duke Brain Imaging and Analysis Center (BIAC), which is located in the Duke North Hospital. Please refrain from consuming **caffeine** at least **two** hours before your exam. If you wear **eyeglasses**, please know your prescription so that we may have the appropriate corrective lenses for you in the scanner. If this is your second visit, you will be asked to provide a saliva sample. **Contact lenses** (non-colored) may be worn in the scanner. Please go to **room 07** in the **ground floor** of the **Social Psychology Building** to meet the experimenter and walk over to Duke North Hospital.

In the case that you are lost or unable to find the experimenter, please call the lab at (919) 684-1039.
